TM IT Consultancy are proud to announce the opening of 2 webshops where customers can now browse tens of thousands of products online, which can then be purchased straight from the website.

Our Main webshop offers mainstream products, from PC's to Plasma screens, Backup Tapes to Keyboards and mice.

Th speciality shop offers some products our customers have previous difficulty finding, so we have brought them all under one special area. We are adding to the Speciality store daily, so please check back, or let us know if there is something you require that we do not have listed.
